The MENA region includes many of the most energy-advantaged countries in the world. While each of these nations shares of vast potential for solar energy, each has its own unique solar business model and cultural identity.

The Solar GCC Alliance exists to encourage each of its affiliate countries to pursue independent solar development, while simultaneously providing an infrastructure for international collaboration.

The Solar GCC Alliance is meant to serve as an online platform, providing members a digital venue to gain information about the solar markets across the region, and the ability to connect with relevant stakeholders across the GCC solar value chain.

Empowering Solar Development and
Collaboration in the GCC Region

Local Champions:

Our aim is to identify local sponsors in each country that can assist in the development of an active organization. The Solar GCC Alliance is currently forming affiliates in the United Arab Emirates, Oman, Kuwait, Qatar, Bahrain, and Jordan. We encourage businesses, governments, utilities, and academic institutions in affiliate nations and the international community to join us in our efforts and make the solar potential of the MENA region a reality

The Solar GCC Alliance is for:

- Large companies looking to expand their presence
- SMEs looking for break into the GCC markets
- Individuals curious about the market developments across the region
